LUNAHANA

Luna means Moon.
Hana means Flower.

Lunahana, a skin care company started up by a florist and a aromatherapist.

Natural skin care industry is one of the fastest-growing market currently. Lunahana begun because of the love to all nature plants on the earth. We believe that all flower and plants have their own characteristics with healing, calming and protecting power.

Aromatheraphy, is a holistic healing treatment that uses natural plant extracts to promote health and well-being. Sometimes it's called essential oil therapy. Aromatherapy uses aromatic essential oils medicinally to improve the health of the body, mind, and spirit. It enhances both physical and emotional health.

There are plenty of reasons to use natural skin care instead of commercial products, like avoiding potentially harmful synthetic chemicals. Plus, it's an eco-friendly option.

Benefits of natural skin care

According to a 2015 study, botanical products can be a rich source of:

- vitamins
- antioxidants
- essential oils
- hydrocolloids
- proteins
- terpenoids
- bioactive compounds

According to the study, plant extracts can be a safe and cost-effective alternative to synthetics.

We encourage consumer to understand the ingredients label for every products that are using. Then you will know the less is more, the simplest material provide the most natural care.

Welcome to the world of Lunahana

The background of the entire page is a photograph of two women from the waist up. They are wearing white button-down shirts and light-colored aprons. Each woman is holding a large bouquet of flowers wrapped in clear plastic. The woman on the left has a bouquet with purple and white flowers, while the woman on the right has a bouquet with white and pink flowers. The image is slightly faded to allow text to be overlaid.

Everyone has different definitions of aromatherapy.

Some people think that aromatherapy is alternative medicine or complementary therapy; others think that aromatherapy is an art, a philosophy related to beauty.

Aromatherapy not only brings aroma to the environment, but also changes emotions and promotes physical health through the brain without taking medicine. To us, aromatherapy is more like an attitude to life. It is a physical and mental maintenance that people need every day.

Some people may need a cup of coffee or tea every day, and we need to be exposed to aromatherapy every day. Many diseases often start with psychological problems. In fact, as long as you are happy, you are less likely to get sick.

It's similar with your skincare, give up those chemical burden and back to the basic, let your skin shine with healthy glow.
